

27th Annual Conference on the Adirondacks
May 18th and 19th, 2023
The Conference Center at Lake Placid, Lake Placid, NY

**"Climate Change in the Adirondack/North Country Region –
Mitigation, Adaptation, and Implications"**

CALL FOR PAPERS – PAPERS & POSTERS

The Adirondack Research Consortium invites researchers of national, regional, and local expertise to present their latest scientific research at the **27th Annual Conference on the Adirondacks** at the Lake Placid Conference Center, **Lake Placid, NY, on May 18th & 19th, 2023.**

This is an invitation to submit an abstract of a **paper** to be presented at the conference. Individuals may also choose to submit an abstract for a **poster** to be displayed throughout the proceedings which will include an opportunity to meet other conference attendees to discuss it at a Poster Reception held at the end of the day on May 18th with refreshments, music and prizes. If your paper is not accepted, you are invited to present a poster.

The 2023 Annual Conference theme is "***Climate Change in the Adirondack/North Country Region – Mitigation, Adaptation, and Implications***". A large block of the Annual Conference will include specific practical presentations on how communities, individuals, and businesses can comply with the requirements of New York State's Climate Action Plan. We are inviting State officials, and experts from universities and businesses to discuss implementation strategies and available technologies. The Conference will also include traditional presentations on natural resources and the Adirondack community. Presenters are encouraged to present research conclusions initially followed by limited slides supporting that conclusion and providing time for audience discussion.

You can find an **abstract submission form** at www.adkresearch.org or by contacting the Consortium directly. Electronic submissions are preferred. The submission deadline is April 14th, 2023. Decisions on paper presentations will be made within two-weeks of receipt. If a paper is not selected for presentation the author is invited to present a poster. Participants are asked to register for the conference.

We are also inviting researchers to consider submitting their research for publication in the **Adirondack Journal of Environmental Studies (AJES)**. AJES is now accepting submissions for Volume 26. Deadline for submissions is April 15, 2023. For Volume 26 we plan a special focus on social issues facing the Adirondacks, but will also welcome articles of a broad disciplinary or interdisciplinary scope including topics in natural and social sciences, arts and humanities related to the region, or of more general environmental interest. For more information, please go to the AJES website at <https://digitalworks.union.edu/ajes/>.

For more information, please contact the Adirondack Research Consortium at (518) 241-6186 or by e-mail at adkresearchconsortium@gmail.com. Conference program information can be found at www.adkresearch.org.

Please share this announcement with colleagues and friends and encourage them to participate in this opportunity to promote science and research in the Adirondacks!
